

## **American with Disabilities Act (ADA)**

Pulaski County Commission comprises the local government responsible for setting objectives for the rural public transportation system. The local governments near-term objectives for the Section 531 program are to improve the mobility of and quality of life for all county residents, and to best utilize the Section 5311 program by increasing utilization, maximizing revenues and controlling costs.

Management of Pulaski County Transit consist of the Sole Commissioner and the County Clerk who share administrative, operational , hiring and coordination's responsibility. Pulaski County is administered by a third part, Community Action Agency, Inc., with offices in Eastman, Ga. Scheduling and dispatching are performed by MGCAA form an office in Hawkinsville.

Objectives of the Transit system are to increase ridership while increasing the passenger per mile ration, increase the operating efficiency of the program, and to increase revenues through public fares.

The rural public transportation service is a part of the county government and therefore is regarded and treated as other county departments. Being a county function, the relationship and flow of information to the County Commissioner is direct.

### Accessible Service

Wheelchair-accessible service is available. When you call to schedule your trip, please let us know of any assistance you may need in boarding or disembarking the vehicle. For the safety of all passengers, our policy requires that mobility devices be secured top the vehicle. If for any reason the device does not attach, the passenger reserves the right to continue the trip.

Service animals accompanying individuals with disabilities are permitted.

Personal care attendants accompanying persons with disabilities (ADA) are permitted free of charge.
